

# North Jersey Health Collaborative

health matters

North Jersey Health Collaborative  
Morris County Committee Meeting  
December 7, 2021

Introduction of Sarah Rubinstein as incoming chair. A chair elect for 2023 is needed. Interested persons should contact Laura or Sarah.

Mary Ellen Zung discussed cancer screening project for persons with intellectual and developmental disabilities (IDD). Denise suggested that as we prepare the CHIP, inclusion for people with disabilities should be addressed.

Laura reported that the CHNA is complete and will be posted on the website on December 15. It will be linked to the NJDOH website under Community Plans.

The indicators for the CHNA have remained relatively the same –

- Chronic disease and Cancer
- Mental Health and Substance Misuse
- Healthy Aging
- Maternal and Child Health

Social and health equity will be at the center of our efforts, within a framework of the Social Determinants of Health.

Outcomes and outputs will again be separated in data collection efforts for impact.

All attendees were asked to complete the survey, which will assist with creating the Action Plan. Laura will share the link to the survey with all members.

**Please be part of our Community Health Improvement Plan (CHIP) by filling out this questionnaire.**

**We look forward to doing impactful work with your organization in 2022.**
