

North Jersey Health Collaborative

health matters

Executive Director, Laura O'Reilly Stanzilis, and County Committee Chair, Catherine Scutti, welcome everyone and begin introductions 10:00am.

Attendance: (11) Catherine Scutti, Laura O'Reilly-Stanzilis, Daniel Wikstrom, Blythe Ulrich, Shantelle James, Diane Silbernagel, Jeannette Davison, Katie Bisaha, Layal Helwani, Gladys Harris, Jeannette Davison.

Laura O'Reilly-Stanzilis speaks on the CHIP and the North Jersey Health Collaborative:

Website Updates

If you look at our website, you will find our [Progress Tracker](#) page. If you click on the Passaic County tab, you will find all the work that our partners have been doing in the County. The data you share with us should be the data you share with your senior leadership to show impact. When you share your outcome data with us, you will be contributing to the collective impact of the county's CHIP and reported to the department of health. When you report to us your data you will also be added to the [Partner Resources and Services Page](#). Our goal is to share this list of partners with healthcare agencies so they can use our partners' services.

CHIP

The information gathered from the CHIP Questionnaire will be incorporated into the Community Health Improvement Plan which is a public health document. Because each county has unique intervention topics (Physical activity, blood pressure, pre/diabetes etc.) we are asking specific questions on the programs and putting them into broad categories (Chronic Disease).

The [Passaic County CHIP Questionnaire](#) is live, everyone is encouraged to take it. Please share this link out with your professional network. The more participation we get the stronger we are as a collaborative in support of the work of public health.

Catherine Scutti welcomes individuals to share what is new with their organizations:

Blythe Ulrich: We have an open position for health educator at Chilton. To see current events see [our current events calendar](#).

Gladys Harris: Care management is something that not everyone can afford, so I do a lot of pro bono work. So when someone comes to me without two nickels to rub together, I take them on just like I would my paying clients.

Katie Bisaha: Conversations of your life is a way to start a conversation with your family members regarding end of life and advanced care wishes. <https://www.njhcqi.org/coyl/>

Catherine Scutti thanks everyone for attending and calls the meeting to a close 10:50

Chat:

Daniel Wikstrom:

Gladys F Harris:

Gladys F Harris BS, MBA, CMC, CDP - Certified Geriatric Care Manager & Founder of The Olive Group LLC health care management services providing comprehensive concierge-level care management to families with elder care needs. We serve as guides through the fragmented elder care & special needs landscape, connecting clients with local services, assisted living facilities, & a wide network of paid caregivers, elder law / special needs attorneys, & financial advisors. We help families finding living options, assess the abilities of older family members, write comprehensive care plans & closely work with licensed / bonded / insured home care companies for the hiring & supervision of home help. gladysharris@theolivegroupllc.com ; www.theolivegroupllc.com ; 954-892-8209
