Information About The Flu

The Centers for Disease Control and Prevention (CDC) recommends a yearly flu vaccine as the first and most important step in protecting yourself and your family. Anyone can get the flu, even healthy people. There are many convenient ways to get a flu vaccine, including your primary health care provider, your employer, your local health department, or a retail pharmacy in your community. If you are enrolled with a home care agency, call to ask if they are providing flu vaccines to clients.

For more information, visit atlantichhealth.org/flu

Lung Cancer Screening Program

Lung cancer screening is used to detect the presence of lung cancer in people who may be at risk, but aren't showing signs or symptoms. The goal of lung cancer screening is to detect lung cancer earlier, when it's easier to cure. The U.S. Preventive Services Task Force (USPSTF) recommends annual screening for lung cancer with low-dose computed tomography (LDCT) in adults aged 50 to 80 years who have a 20 pack-year smoking history and currently smoke or have quit within the past 15 years. Atlantic Health System provides a lung cancer screening program that is covered by Medicare and other commercial insurance companies. Funding is available for those who are uninsured or underinsured. For more information, call 1-844-228-LUNG (5864) or visit atlantichhealth.org/lungcancerscreening.

Pre-registration is required for all virtual classes and programs. To register, visit atlantichhealth.org/events or call 1-800-247-9580.

For all inquiries regarding Community Health, email communityhealth@atlantichhealth.org or call 1-844-472-8499.

Atlantic Behavioral Health Access Center
